SPECIAL REQUIREMENTS:

Must possess and maintain a valid New York State driver’s license and clear driving record for the duration of employment.

DISTINGUISHING FEATURES OF THE CLASS:

This is an important supervisory and technical position involving responsibility for the safe and efficient operation and maintenance of the Town of Ithaca’s Water and Sewer systems. The work involves planning and maintaining current and future water and sewer infrastructure system. Work is performed under the general supervision of the Director of Public Works, with leeway allowed for the exercise independent judgment in carrying out work activities. Public Works Department activities are a coordinated effort between the management team of the Deputy Town Highway Superintendent, Water/Sewer Maintenance Supervisor, Parks Maintenance Manager and Senior Civil Engineer. The employee will supervise the work of subordinate staff and work crews. The incumbent will perform all related work as required.

TYPICAL WORK ACTIVITIES:

- Assists Director of Public Works in the planning and coordination of operations of Public Works Department;
- Oversees the construction and maintenance of the water and sewer maintenance program including schedules, implementation measures and cost estimates;
- Coordinates with Deputy Town Highway Superintendent, Parks Maintenance Manager and Senior Civil Engineer on daily staff assignments and overall work load of Public Works Department;
- Coordinates with Engineering regarding town water and sewer infrastructure maintenance and capital improvements making recommendations on improvements and changes to infrastructure and facilities;
- Performs development reviews of projects proposed in the town and makes recommendations regarding water and sewer infrastructure, in conjunction with Engineering;
- Supervises the work of subordinate personnel, planning, assigning and reviewing work, makes staffing recommendations and assisting with performance review program;
- Aides in the development and implementation of department policies and procedures;
- Monitors construction and maintains budget to track expenditures;
- Prepares reports, keeps daily logs of projects, and tracks program costs for Director of Public Works;
• Prepares Federal and State documentation relative to operation, maintenance and failures of the sewer collection and water distribution system and other related records and reports as required;
• Assists Director of Public Works with the annual budget process;
• Aides in the coordination of joint projects with other departments, governments, residents and agencies;
• Maintains an inventory of supplies and equipment, and makes purchases as needed;
• Respond to constituents inquiries relating to water and sewer, and all related maintenance;
• Provide leadership in maintaining good and effective public relations;
• Provide technical assistance to Town Board, Town staff, other municipal boards, commissions, committees, officials and staff;
• May represent the Department at meetings with staff and officials from other municipalities, outside agencies and residents;
• Reviews invoices regarding water and sewer received from municipal entities to ensure accuracy prior to payment;
• Ensures compliance of Confined Space program and coordinates annual safety training;
• Keeps aware of safety procedures and/or potential safety hazards and relays them to the crew;
• Assists in the management of department records, documents and equipment;
• Available for 24 hour / 365 emergency response and coordination of emergency response situations.

**KNOWLEDGE, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:**

• Thorough knowledge of the practices, methods, tools and terminology in the construction and maintenance of water and sewer systems;
• Thorough knowledge of various residential, commercial and industrial plumbing systems;
• Possesses a detailed knowledge of the town’s water and sewer systems;
• Good knowledge of construction practices and safety procedures;
• Ability to read and understand engineered construction drawings and specifications;
• Ability to plan, train, organize and supervise the work of others;
• Ability to lead and supervise the operation of pumps, valves and related mechanical, electrical, instrumentation and control equipment;
• Ability to lead and coordinate regular and emergency repair and maintenance operations;
• Ability to understand, administer, and assist in the enforcement of federal, state and local codes and standards such as plumbing codes and water industry standards and local laws;
• Ability to operate computers for administrative and operational purposes;
• Must possess a mechanical aptitude and the knowledge and skills necessary to make repairs to system;
• Ability to communicate effectively by being clear and concise, both orally and in writing;
• Ability to apply good judgment and be accurate with all work products;
• Willingness to keep up-to-date and continuously improve knowledge and performance;
• Committed to a team approach to problem-solving;
• Ability to accurately create legible records;
• Ability to meet deadlines while performing in an unsupervised atmosphere;
• Must be customer service oriented with an ability to maintain interpersonal relationships;
• Performs duties in a cooperative, courteous and professional manner;
• Possesses good oral and written communication skills;
• Alert, observant, reliable, and dependable;
• Must maintain a neat and presentable appearance appropriate for the position;
• Must practice safe driving and work habits;
• Ability to get along with others utilizing tact and courtesy;
• The employee’s physical condition shall be commensurate with the demands of the position, including the ability to routinely lift and handle weights up to 50 pounds.
